Allowable Subject Matter

1. Claims 1, 5-10, 14-19, 23-28 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 10, 19, the prior art of the record fails to show or fairly suggest a method for enhancing performance of a high-capacity storage media in a digital imaging device as claimed in claim 1 or a system for enhancing performance of a high-capacity storage media in a digital imaging device as claimed in claim 10 or a computer-readable medium containing program instruction for enhancing performance of a high-capacity storage media in a digital imaging device as claimed in claim 19, comprising synchronizing the image category list, wherein the synchronization includes performing a subsequent synchronization of the image category list after it has been determined that at least one image was deleted, added, or recategorized when the storage media was under control of an external device.

Claims 5-9 are allowable for the reason given respect to claim 1.

Claims 14-18 are allowable for the reason given respect to claim 10.

Claims 23-27 are allowable for the reason given respect to claim 19.

Regarding claim 28, the prior art of the record fails to show or fairly suggest a method for enhancing performance of a high-capacity storage media in a digital imaging device, comprising requesting the user to initiate a synchronization of the image category list with the images on the storage media when it has been determined that images on the storage media were deleted, added, or recategorized while the storage media is under control of an external device.
